De Dogs Days .- We are now in the season known as the dog days, with cool nights and a warm sun during the day. This is the kind of weather to breed fevers, agues, and other diseases incident to the season. Persons should practice prudence necessary exposure.

Some editor has wilfully perpetrated the following outrageous and abominable rhyme: "Hail beautious maid of grace divine,

Why do you wear a bump behind !" To which a BUSTLE-ing maid makes the

following retort : "Hell, daudies with your broad tail coats. Wir do you wear your hair like gonts?

THI IRISH AGITATION AND THE UNITED STATE.—The following curious paragraph appeas in the Freeman's Journal, an Irish pape published in New York. We do not thing the American people are prepared to

sustin the assertion of the editor. When the news of an Irish army having me the British in a regular engagement, and walo not say gained a battle, but made good a streat without being dispersed-when the nes of an Irish army having sustained itself ighe field in any way for two weeks, shall he reached this country, the effect we antipate from it is such a tempest of feeling d such bold and active measures of sympay, that our country itself will be driven into par with Great Britain. And much as war s to be deprecated, we cannot find it in our heart to say that we would regret it in such a case, nor do we believe that the sentiment of Christendom would not applaud the United States, if on the first sound of a declaration of independence by the Irish people, in any organized capacity, we were to recognize her claims, and declare their quarrel our own.

The letter was written in cypher to evade the vigilance of the British Post-office, which would otherwise have detained it, but we make the number six thousand. The writer would not knowingly deceive the public. His brother is a resident of this city. Without further comment, we subjoin the letter: DUBLIN, Aug. 3, 1848.

No newspaper here dare tell the truth con-terms, joint lives, survivorships and endowments they be remined the Battle of Shevenamon, but from Applied in (1st which there are blank sheets) are to be lead on application at the office, or by letter to the Agent, J. H. PURDY, Soubary. all we can learn the people have had a great victory. Gen. Macdonald, the commander of the British forces, is killed, and six thousand troops are killed and wounded. The road for three miles is covered with the dead.

We have also the inspiring intelligence that Kilkenny and Limerick have been taken or by the people. The people of Dublin have gone in thousands to assist in the country .-Mr. John B. Dillon was wounded in both legs. Mr. Meagher was also wounded in both arms. It is generally expected that Dublin will rise and attack the Jails on Sunday night, (Aug. 6.)

All the people coming in on the Railroad are cautioned and commanded not to tell the news. When the cars arrive thousands of the Dublin people are waiting for the intelligence. The police drive away those who are seen asking questions.

Why all this care of the Government to prevent the spread of intelligence, unless it be that something has happened which they want kept as a secret! If they obtained a victory, they would be very apt to let us know it.

We are informed that the 3d Buffs (a regiment of Infantry) turned out and fought with the people. The 31st Regiment, at Athlone, have also declared for the people, and two regiments have been sent to disarm

The mountain of Slievenamon is almost in accessible. There is but one approach to it. It is said to be well supplied with provisions. It was a glorious place for our noble Smith O'Brien to select. It is said he has sixty thousand men around him, with a considerable supply of arms, ammunition and cannon.

PRICES IN CALIFORNIA.—The want of machinery is a great drawback to manufacturing in California. Like all territories inhabited by the descendants of Spain, very little attention has been devoted to preparing their rich products for home use, and, consequently, all manufactured articles sell high. The best sume, the end is not yet. They will have hides sell in California for \$1.50 each, which are manufactured into boots in the United States, and sold in the Pacific towns at from \$6 to \$18 per pair. DYSPEPSIA.

No fluid or medicins has ever been discovered which so nearly resembles the gustric juice or saliva in decomposing food and strengthening the organs of digestion as this preparation of Sarsaperilla. It positively cures every case of dyspepsia, however severe or chronic.

Dr. Townsends—Sir: I have been afflicted for several years with dyspepsia in its worst form, aftended with sorness of stounch, loss of appetite, extreme heartburn, and a great aversion to all kinds of food, and for weeks, (what I could eat) I have been amable to retain but a small portion on my stomach. I tried the usual remedies, but they had but little or no effect in removing the complaint. I was induced, about two months since, to try your Extract of Sursaparilla, and I must say with little confidence; but after using nearly two bottles, I found my appetite restored and the heartburn entirely renoved; and I would earnestly recommend the use of it to those who larve been affilied as I have been. It ashort, their use has been proved in the relief of almost all the symptoms that preced from a debilitated or atomic candition of the Stomach; also in general debility arising from ege or from the effects of Fever, particularly Favet and Ague. Feinales suffering under any uterine demagement arising from weskness, will find the "Oxycenated Bratess" an excellent runedy, and not surpassed by any medicine in use.

Thus," an excellent roundly, and not surpassed by any medicine in use.

The history of this medicine is peculiar. It has made its way to public favor solely by the force of its own intrinsic merits. No artificial means have been used to give it not strictly and thrust it upon public attention. It has never before even been advertised, but having first shown its remarkable efficacy in the finally of the proprietor, and by him afterwards administered to his afflicted triculs and acquaintances with a like result, in a reputation gradually extended until it is known in the most distant puris of the Union, as a medicine of uncivalled virtues in the cure of Dyspegnain and its different forms, and also for the cure of Asthma or Philisic. Its only herald and its only energy has been the story of its wenderful efficacy, as told from mouth to arouth or by better its an friend to iritian. In every instance where these Bitters have been used, and the result made known to the proprietor, they have proved a remedy.

PANACBA THE ONLY RADICAL CURE FOR CONSUMPTION!

In this medicine several imposent but very potent articles of the vegetable king, lan are mitted, forming a compound entirely different in its character and properties from any other preparation, and univaded in its operation on the system when laboring under disease. It should be in the hands of every person, who, by business, or general course of life, is predisposed to the very many affinests that render life a curse, instead of a blessing, and so often result in death.

RHUEMATISM BRICEMATISM.

Dr. Drake's Panneen is used with the greatest success in Rheomatic Complaints, especially such as chronic. It cures by driving out all impurities and foul hum ars which have necessalized in the system, which are the cause of Rheomatism, Gout, and Swellings of the joints. Other remedies smetimes give temporary relief; this entirely eradicates the disease from the system, even when the limbs and bones are dreadfully swollen.

CONSTAPTION.

CONSEMPTION CAN BE CURED—Coughs, Catarrh, Bromchitis, Spitting of Blood, Asthum, Difficult or profise Expectoration, Herite Flush, Night Sweats, Pain in the side &c, have been cured, and can be with as much certainty as any other disease. A specific has long been singlif for, but in vain until the diseasery of Dr. Drake's Panacea, it is mild and safe but certain and effications in its operation, and cannot possibly injure the most delicate constitution. We would carneatly renomined these difficted to give it a trial—and we believe they will not have occasion to regret it. The system is cleanaged and strengthened, the theory on the language renomined "quack nostrum," are decidedly the most valuable medicine ever offered to the public.

WRIGHT'S Indian Vegetable Pills.

This medicine is compounded on general principle, from the pure, unadalterated heris of the Indian. Although there are many medicines called by the same name, ever there are many medicines called by the same name, every one is aware that there is a very greet difference among them. Those of them that are called "Indian," have stoken the mame from us, who were the first to introduce a prepared Indian medicine to the American public. Of course a similarity of name does not create a similarity in the character of the medicine.

Wright's Indian Vegetable Pills are distinguished for their perfect adaptation to the human body. In their operation, they do exactly what nature does, and nothing store. They have a rock-rock across, months lungs, fixin, kid-
